

ARROW BOARD TRAILER

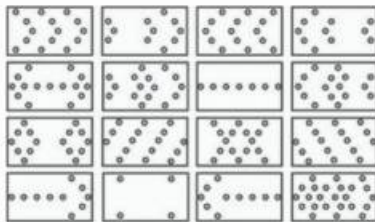

Code: RE-FLE

FEATURES

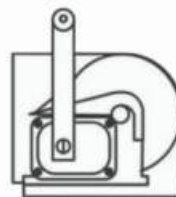

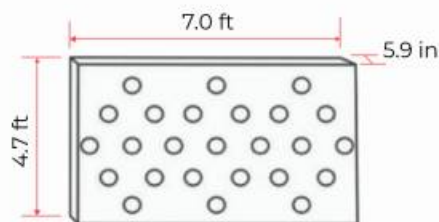

- Our trailer has the best signage system to prevent accidents.
- Luminous flashing device made of 16-gauge galvanized sheet box with anti-corrosion and black acrylic enamel coating.
- Lighting system is based on LED clusters (red or amber color) with intelligent control that is suitable to display different flashing sequences and speeds.
- 4" x 2" RHS metal body guarantees functionality in detours, work zones, land slides or repairs.
- Support with 14" tires and reinforced axles for easy management.
- It has accessories to ensure an optimal functioning, such as center jack to facilitate balance in sloping areas; navigation, direction and warning lights; and also wiring harness for lights.
- Solar power supply system by rechargeable photo voltaic panel of 60W-12V-40AH.
