

SOLAR DOUBLE ARROW SIGN

Code: FLECHA D-S

FEATURES

- Lightweight body manufactured in one-piece of black polyethylene.
- Resistance to weather, temperature changes, and protection against UV-ray.
- Long-life-span thanks to its resistance to oxidation.
- 100 % recyclable.
- Easy to install.
- 2" x 2" reinforced Posteflex®, offering a fast installation and superior durability to vandal acts.
- Prismatic reflective background in yellow, with double arrow in black vinyl.
- Its plastic material prevents thefts, due to its negligible resale value and specific use.
- Manufactured in resistant materials and robust design to resist vandal acts and severe external conditions.

LIGHTING SYSTEM

- Solar panel of 1.5 x 15 in
- 24 LED's in amber color with conical optics, optimizing the light expansion on the double arrow to indicate traffic flow
- 2 batteries of 1.5 V.
- JVM power supply electronic circuit that synchronizes the flashing of the arrows at the same time.
- Recharge during 6 hours under sunlight, and has a durability of 24 hours on flashing mode.

WHAT'S A DOUBLE ARROW SIGN?

This works with solar energy, guaranteeing autonomy and energy savings without cables, neither external electric connection.

Can operate individually or with other units. When many units are installed, these synchronize with others simultaneously, increasing visibility and efficacy.

Ideal for zones with fog, rain or other adverse climate conditions, ensuring a reliable and durable performance.

Made of resistant materials and robust design to resist vandal acts and severe external conditions.

This device provides more than an effective and constant protection, but contribute to the efficient use of resources to use solar energy.

2 year warranty for hidden defects or manufacturing flaws.

1.5 X 15.7 in photocell mounted on the top part of the signal

SOLAR DOUBLE ARROW SIGN

MEASUREMENTS

Dimensions and other measures are nominal and may vary by 2%.

Dimensions:

- Length: 25.1 in
- Width: 2.4 in
- Alto: 31.4 in

Signal Dimensions

- Length: 23.6 in
- Height: 29.9 in

Reflective Sheeting

- Prismatic

Color of Reflective Sheeting

- Yellow, with double arrow in opaque black vinyl.
