

BARRICADE 110 + ULTRAX ARROW

Code: BA-110-FLE

THE PERFECT DUO

The union of these two devices generates a correct flow and safer road, due height calls the attention of motorist.

These elements are perfect to guide transit in different situations, including construction zones, temporary detours, and also as part of signage in emergency and service vehicles.

This innovative design not only ensures a high visibility and durability, but makes an easy and adaptable installation to different signage needs.

Useful for commercial and service zones, such as gas stations, drug stores, parking lots, supermarkets, etc.

FEATURES

BARRICADE:

- Body manufactured in MDPE with UV protection; device in orange color which is highly visible.
- Base can be filled with sand, providing greater stability; base can be oval or deco; yellow color.
- Incorporates from 2 to 4 reflective stripes (optional in both faces) that ensure perceptibility, above all in periods of reduced luminosity, such as night or in fog.
- Resistant to shocks and impacts.

ARROW:

- Arrow shaped with round borders to avoid damages; reflective face in yellow or white color.
- Body manufactured in a single piece of MDPE in red or black color.
- It can be in right or left direction.
- Flashing mode, ability to synchronize with similar devices.
- **LIGHTING SYSTEM:**
 - 300 mm x 60 mm solar cell.
 - 21 ultra-bright LEDs with conical optics with mirrors that expand light.
 - Powered by 2 AA rechargeable batteries.
 - Incorporated JVM circuit to synchronize with other arrows.
 - Up to 656 ft of effective visibility.
 - IP68 protection level.
