

## LUMINOUS BATON

Code: 250RG-AA

### WHAT A LUMINOUS BATON IS?

A fundamental resource for emergencies and works in darkness. Compact, versatile and useful device in low light environments, it can be transformed in an essential ally, whether is in offices, road works or any other place.

From power outages to road emergencies, this baton provides an effective and convenient answer. Its compact design ease transport and ensure to always be available when is more needed.

### FEATURES

- The baton offers three light modes, steady white light to light dark areas and steady or flashing red light, ideal for road emergencies.
  - White light works as an emergency lamp in blackouts or outages, guiding people to escape routes in buildings.
  - Red light, both, steady and flashing one are crucial to alert in road situations, specially for workers in highways.
- Equipped with tape to hang on wrist, preventing the loss of baton during its use.
- Magnetic handle to fix in metal surfaces, allowing hands to be free for other tasks in dark conditions.
- It works with 3 included "AA" batteries, removing need of external energy sources, guaranteeing immediate availability.
- The compact design ease transportation and storage, a convenient device to move to any place.
