

## KAYAK 700 CHANNELIZER

Code: CA-YAK-700R

### A CHANNELIZER THAT DISSUADES WITHOUT DAMAGE

Transit channelizer for exclusive lanes.  
Essential device to guide safely and efficiently in bike lanes.

Robust structure designed to withstand impacts and guarantee a prolonged life span.

Protect cyclists and other road users efficiently, absorbing impacts and reducing risk of injuries.

Equipped with a reflective band, this device is visible easily during day and night, improving significantly safety in low light conditions.

Thanks to the design with high reliefs help cyclists to don't skid if running over the channelizer, ensuring a safe interaction for cyclists and motorists.

### FEATURES

- Channelizer manufactured carefully to offer durability, functionality and safety by delineating bike lanes.
- Body manufactured in medium density polyethylene in a single piece with UV protection that ensure a long life span without concerns of discoloration or deterioration caused by sun exposure.
- Availability of colors, green or yellow, offers a great range of products to adapt to different urban environments and specific needs of traffic signage.
- High relief design for a non-skid surface.
- Round borders to avoid vehicle and bike damage when channelizer is ran over.
- The use of anchoring bolts of ABS and optimized store in lower part holes ease transportation and storage.
- Mechanic resistance of material ensure a long life span of device, minimizing the maintenance costs and replacement.
- With these features, the device not only comply with resistance and durability standards, but guarantees a long term effective and reliable traffic signage.
