

WHITE ROAD MARKING PAINT

Code: pintura

WHAT ROAD MARKING PAINT IS?

Also known as traffic paint or pavement marking paint. Paint (water or oil based) increase road safety by providing a clear and visible marking in paths and roads.

This is specially designed to sign traffic lines, parking lots, urban roads, center barriers, curbs and others.

The high visibility transform them into the ideal option for a road infrastructure.

Option to include glass micro-spheres to improve reflectivity. These are available in 19 or 200 ltr presentations in yellow color.

Share with us your specific needs and we will help you to find the best solution for your road project.
