

STREET SIGN - 770 WITH LIGHT

Code: NOM-770L

WHAT'S A STREET SIGN?

What is truly majestic is in the small details...

The street sign 770 is luminosity in all its splendor, with anti-vandalism and anti-graffiti design.

Indicate to users the name, type of road, demarcation of location, traffic flow, and in some cases the address signs of streets, avenues, et al.

It is placed in a proper post or preferably an existent one at the corner of the road intersections.

Ideal in strategical zones with pedestrian flow or meeting points.

Geo-location with QR-code for emergencies and safety.

FEATURES

- **Street Sign** manufactured in lightweight body in white RCB polymer to allow the sunlight pass through, designed in one-piece with 2 integrated flanges to install on the post.
- Curved front to add any flexible coating with adhesion for signage in both sides.
- Resistance to inclemency and temperature changes, with UV-protection.
- Long lifespan, it doesn't rust.
- 100 % recyclable.
- Easy to install, (stainless steel strap).
- Fastening on 4" 16-gauge post with ¼" 11.8 x 11.8 in plate or on existing post, finished in black color with electrostatic paint (optional).

ELECTRICAL SYSTEM

- LED technology with low-power consumption of electric energy, environmentally friendly.
- ON/OFF system via photoelectric electronic sensor.
- Strip of 168 latest generation ultra-bright SMT LEDs in white color, with 1.5 Watts.
- Aluminum support for LED heat sink.

Installation with strap

Tubular post with diamond-type finial

LED-based lighting
