WHAT IS IT?

Street Signs are perfect to improve signage and inform pedestrians.

In addition, these are designed in one piece and include support to anchor.

Our street signs are 100% water and vandal-proof.

These are highly recommended for hotels, malls, tourist centers or self-service chains.

We guarantee a maximum resistance and durability. Ideal for cities and municipalities with great pedestrian flow or meeting points.

We have three versions: 390 with light, solar 390 and New City 390.

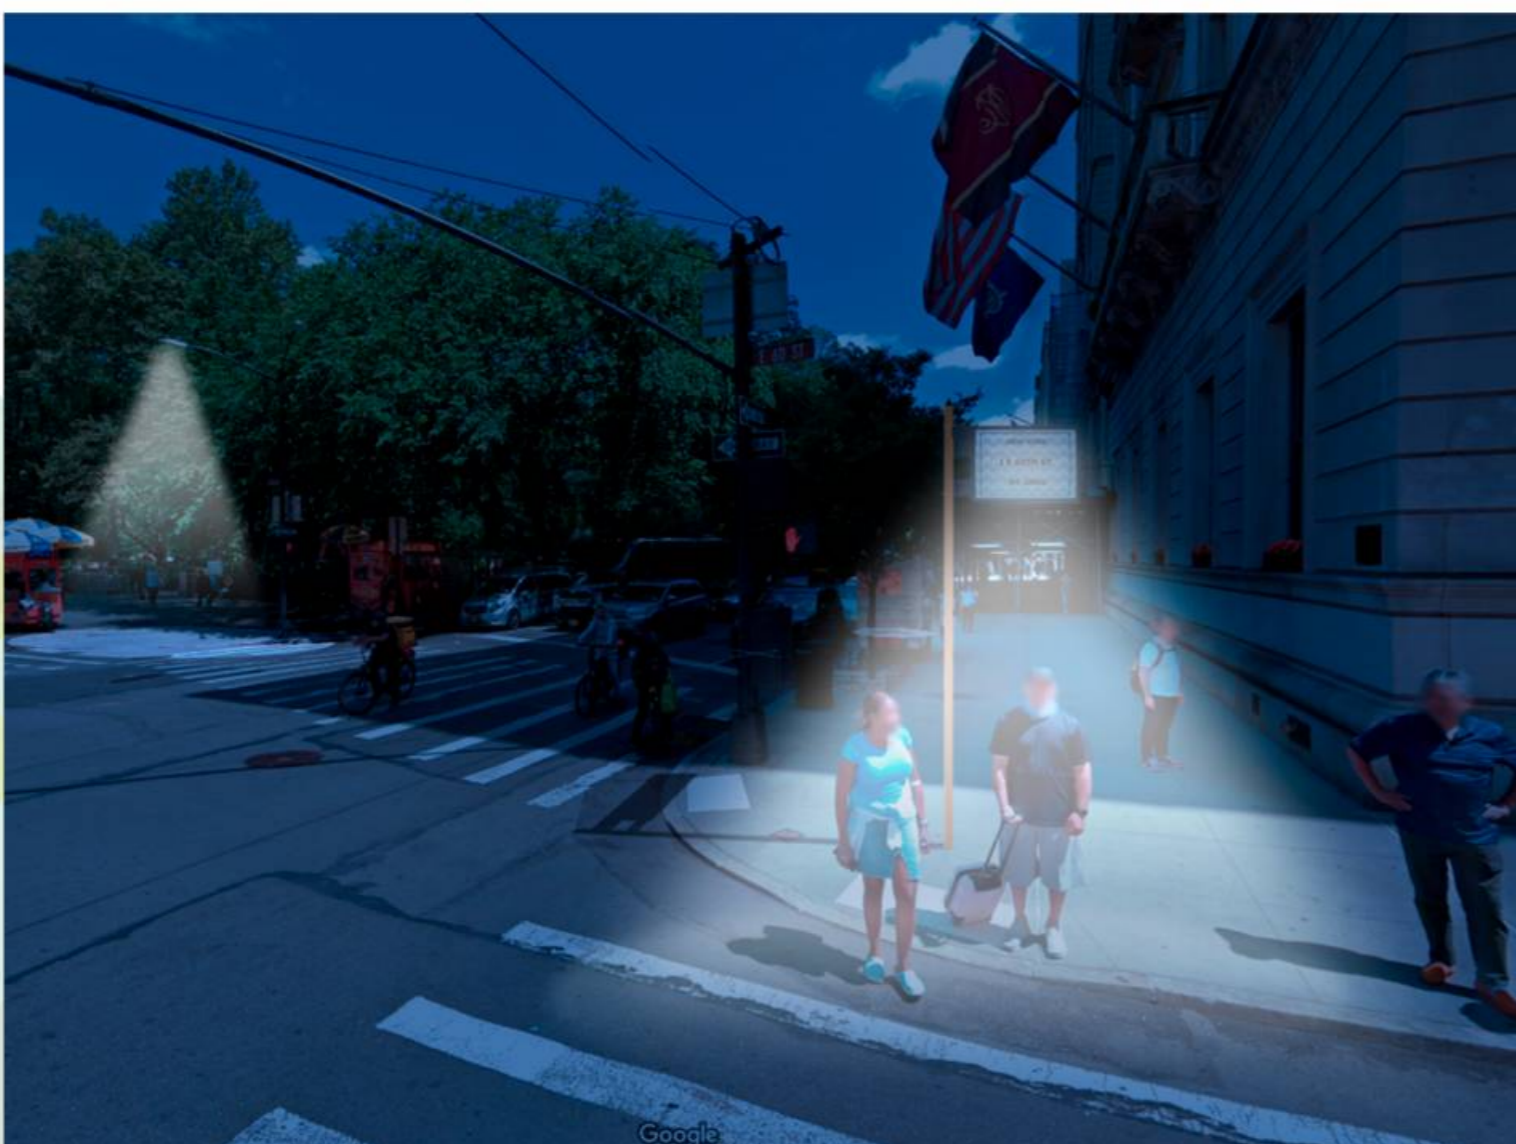

390 WITH LIGHT

SOLAR 390

NEW CITY 390

FEATURES

STREET SIGN 390 WITH LIGHT

- Street sign present a lightweight body manufactured in RCB polymer in white color, allowing an optimal light transmission.
- Our LED technology with low-energy consumption contributes to environmental respect. The ON/OFF system is operated by a photoelectric- electronic sensor, ensuring light efficiency that adapt to specific needs.
- Thanks to the high luminosity, light a 6 meter radius area.

SOLAR STREET SIGN 390

- Integral Design: Manufactured in RCB polymer in white color, unique structure with 2 joins, for a firm fastening to pole, providing a flawless aesthetic.
- Advanced Technology: JVM power system and 3V, 1.65W solar panel with "AAA" batteries of 1100mA, guaranteeing an optimal performance.
- Sustainability; 100% recyclable, contributing to environmental preservation.

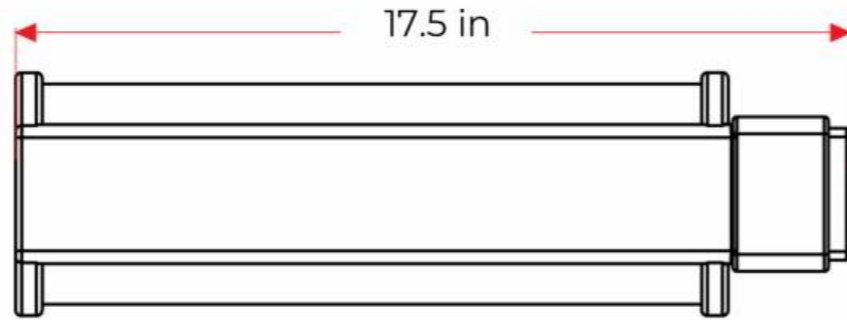

NEW CITY 390 STREET SIGN

- Manufactured in RCB polymer in black color, molded in one piece, with two straps for a safe and uncomplicated installation. Street Sign transforms into a vandal-proof element, ideal to indicate locations and to be used as an advertisement.
- Sustainability: 100% recyclable, contributing to environmental preservation.
