

CROWD CONTROL BARRIER TUBULAR BARRIER

Code: BA-TUB-157

WHAT'S THIS BARRIER?

Barrier for road safety, tubular design, one of a kind, versatile due to its heavyweight legs that can have swivel castors, easy to handle thanks to its exclusive assembly.

The main function of this barrier is to cordon off prohibited zones, also functioning as safety road delimiters.

It is suggested to use in rows, quadrilateral, triangular or equilateral shape, contributing to a safer environment.

FEATURES

- It is used to guide crowds to a right place.
- 2 swivel legs for its easy storage and stacking.
- Manufactured in high-molecular-weight-polyethylene
- Line colors: orange or black; other colors upon request.
- Uniformity in the thickness of its walls, considered as a better performance day to day.
- Lightweight body, with stable and strong legs, these can be heavy or light weight.
- Long lifespan device, resistant to inclemency and temperature changes.
- Protection to UV-ray.
- Stackable, facilitating transport.
- Male-Female double bolt type assembly system to confine straight or curve areas.
- Suitable for one person to easily, quickly and safely join the barriers with a minimum effort.
- Reflective is added for a better visibility at nighttime (optional).
- Advertising spaces.
- Option to include 3" swivel castors, for better handling.
