

DIAMOND S BARRIER

Code: BDS-174

WHAT'S A DIAMOND S BARRIER?

Blow molded traffic barrier, one of a kind, versatile and perfect to fill with water or sand, it can also be used empty, easy to handle thanks to its exclusive coupling.

The most affordable in market.

Its main function is avoid vehicles invade prohibited zones; also used to delimit roads safely.

Mainly suggested in rows to create straight or curve lines, contributing to a safer environment.

FEATURES

- Useful to delimit, sign or provide security in work or construction zones.
- Blow molded barrier in high molecular weight polyethylene.
- Manufactured in one piece with long shelf life.
- Great resistance to inclemency.
- UV-protection.
- Better performance in heavy duty and daily usage.
- Round border to avoid injuries.
- Upper hollow with a diameter that allows filling with wide mouth hose (road tankers).
- Lower cap for draining.
- Male-female coupling for an easy placement from small straight lines to great curves.
- Base with tunnel for free water flow.
- Two debossed bi-directional chevrons on its body, with reflective tape, creating a more visible barrier from any angle.
