

TRAFISIT + ULTRAX ARROW

Code: TSL-112F

THE PERFECT COMBINATION

Traffic drums or booms are road safety devices designed to improve visibility in risk situations, such as construction zones or temporary detours.

These can be used individually or in group, now, have an arrow lighted by latest generation LEDs for greater signage.

In addition, it has the option to incorporate from one to four reflective rings in white color, making them effective during night.

Their clear and flashing design alert motorists and pedestrians about possible dangers such as bumps in road or presence of workers, guaranteeing greater safety in roads. Ideal to announce the entrance of a parking lot or alert a detour in a route.

FEATURES

This pair, in addition, it help us to channelize the circulation within vehicle flow, such as parking lots, to guide transit or delineate specific zones.

TRAFFIC DRUM:

- Manufactured in highest quality polyethylene in orange, yellow or blue color (other colors upon request), guaranteeing a long durability thanks to its resistance to inclemency and UV rays.
- Manufactured in a single piece, with top grip, allowing an easy manipulation and handling, making easier its placement.
- Option to include a highly resistant detachable rubber base, to provide greater stability by avoiding tilts caused by wind.

ARROW:

- Arrow shape with round borders to avoid damages; with reflective face in yellow or white color.
- Body in a single piece manufactured in MDPE, red or black color.
- In can be in right or left direction.
- Flashing mode, with ability to synchronize with similar devices.

LIGHTING SYSTEM:

- 300 mm x 60 mm solar cell.
- 21 ultra-bright LEDs with conical optics with mirror to expand light.
- Powered by 2 AA rechargeable batteries.
- Incorporated JVM circuit; to synchronize with other arrows.
- Up to 656 ft of effective visibility.
- IP68 protection level.

Code: TSL-112F

MEASUREMENTS

Dimensions and other measures are nominal and may vary by +/- 2%.

- Traffic Drum**
 - Top Diameter: 16.5 in
 - Lower Diameter: 19.6 in
 - Height: 44.0 in
 - Height with base: 45.6 in

- General**
 - Diameter: 33.4 in
 - Height: 54.3 in

- Reflective Sheeting**
 - 3.9 in of height in white color (preferably)

- Traffic drum approx. weight**
 - 7.716 lbs

- Total Approx. weight**
 - 30.864 lbs
